# reUp Engines & Short/Long Block Product Offerings

### reUp Upgraded VHP S4 and S5 engine

#### Waukesha Overhauled & Upgraded Engine

#### Models Available

 L7044GSI S5, L7042GSI S5, L7044GSI, L7042GSI S4, L5794GSI, F3524GSI

#### Performance Expectations

- Latest specification S4 gas compression unit ESM2 w/ AFR2 & x-Cooled heads
- Zero hour overhaul with identical intervals to new unit
- New unit operating speed, load, fuel flexibility range
- Same as new engine warranty

#### Flat Rate Core Criteria

- VHP-12 S2/S4 engine w/ internal oil header (1981 and newer)
- Non-OEM head core accepted
- Core credit is based on visual inspection. No adder fees for downstream fallout.

### reUp Short/Long Blocks

#### **SCOPE INCLUDED:**

- Crankshaft
- Crankcase
- Camshaft
- Connecting rods
- Pistons
- Rings
- Liners
- Bearings
- Gaskets
- Seals
- Gear housing
- Gear train
- Cam rollers (ship loose)

#### **WARRANTY:**

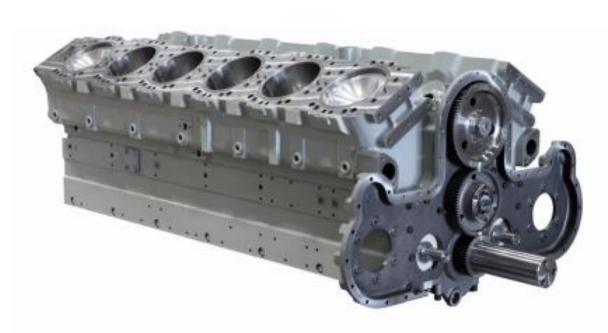

Same warranty as new OEM equipment

#### **SHIPPING:**

Includes shipping skid & bag

**BOM & PRICING SUPPLIED UPON REQUEST** 

#### **AVAILABLE MODELS:**

✓ L7044G ✓ L5794GSI

✓ L7044GSI

✓ L7042GSI

✓ L5790GSI

✓ L5794LT

✓ L7042GL

✓ L5790GL

#### Waukesha reUp Long/Short Blocks VHP 12 Cylinder Engines

**Upgrade Offering** 

#### **Product description**

INNIO's Waukesha\* reUp long and short blocks provide the foundation of a quality engine overhaul. Blocks consist of reman and new components which conform to OEM specifications and are assembled in production environments by trained technicians. The no adder fee core credit policy and Waukesha Warranty provide additional value.

#### Product details

- Short block with new & reUp components
- Each VHP\* reUp short block includes:
- Camshaft - Connecting rods
- Pistons
  Rings
  Liners
  Bearings
  Gaskets

- Seals
- Gear housing
   Gear train
- Cam rollers (ship loose

industrial gas engines generates 200 kW to 10 kW of power for numerous industries globally. We can provide life cycle support to the more than 48,000 delivered gas engines worldwide. And, backed by our service network in more than 100 countries, INNO connects with you locally for regid response to your

specifications: Reman specs are determined by Waukesha Engineering using the same design process used for new units. Validation includes detailed modeling, finite element analysis. materials lab testing, or on-engine

. Quality and reliability: VHP reUp short block components are remanufactured in production environments with supporting quality systems. Block assembly is completed by trained personnel with the same equipment. processes, and tools used to build new units.

 Component fallout: Core credit is determined based on visual inspection of core. No added fees are applied if components fall out later in the core process.

#### Warranty: Waukesha Extended Limited Warranty applies and is • OEM Engineering reman

available: one year from date of service or two years from sale. Shipping: Short blocks are shipped with custom skids and bags which prevent damange and corrosion

INNIO

#### Waukesha reUp Engine VHP L7044GSI & L7042GSI S4 with ESM2

**Upgrade Offering** 

#### **Product description**

INNIO's Waukesha\* reUp Engine Program converts and upgrades existing engines to the latest gas compression specification equivalent to new units. The infusion of new technology increases engine performance and reliability. The program provides customers the following options:

 Upgrade a VHP\* fleet engine through the core engine exchange program · Purchase an upgraded VHP engine outright without core exchange

#### **Product details**

- · Zero hour overhaul engine with new & reUp components
  • Each upgraded VHP includes:
- xCooled heads
   ESM\*2 control system
   Air-fuel ratio control (AFR2)
- Advanced crankcase breather system
- emPact emission control upgrade (optional) Gas compression specification options (flywheel, alternator, high pressure air/gas started, front stub shaft, and water connections)
- Upgraded engines are dynometer tested at full load and come with an updated bill of material

#### **Customer benefits**

• Improved Package Economics: VHP reUp Engines use the latest technology to increase engine horsepower and compressor flow at the lowest capital cost. Upgraded remanufactured engines also have increased service intervals (identical to new) and reduced oil consumption. Increased power and reduced operational expense combine to greatly improve

package economics.
• Reliability: VHP reUp Engines are assembled by trained personnel with the same equipment, parts, processes and tools used to build new units. Upgraded engines come with the same core reliability and

warranty offered on new equipment. Latest Technology: Each reUp VHP includes the latest parts and control systems to ensure equivalent to new engine performance and reliability lewly designed power cylinder components allow increased horsepower. ESM2 and AFR2 improve engine fuel flexibility and the speed

and load response required in gas compression applications The emPact system attains low emissions with little to no operator

Description

- 100% magnetic particle inspection & leak testing
  • 100% new wear component part
- replacement includes: valves, valve guides and valve rotators, seat rings, and o-rings/gaskets
  • Fire deck and valve pockets machined with proprietary CNC
- machinina technology Standard Waukesha Warranty: 1 year date of service, 2 years date of sale, covers progressive damage

INNIO's Waukesha reUp parts reduce operating costs, increase uptime and reliability and recycle material to

Customer benefits

• Reliability: No other component provider can provide the holistic and systematic engineering expertise to remanufacture spare parts for Waukesha aas enaines like we can. We back it up with our standard warranty covering progressive

- Reduced Operating Costs: reUp parts are priced at approximately 40-70% of new OEM parts and are trusted to go the distance to maximize return on investment
- Reduced Environmental Impact: reUp parts deliver efficiencies for manufacturing material and energy
